

Women in the labor force: a databook

April 2021 | Report 1092

In 2019, 57.4 percent of all women participated in the labor force. This was up from 57.1 percent who participated in 2018, but 2.6 percentage points below the peak of 60.0 percent in 1999. By comparison, the labor force participation rate for men was 69.2 percent in 2019, little changed from the previous year and 17.4 percentage points below its peak of 86.6 percent in 1948.

The rapid rise in women's labor force participation was a major development in the labor market during the second half of the 20th century. Overall, women's labor force participation increased dramatically from the 1960s through the 1980s, before slowing in the 1990s. With the dawn of the 21st century, labor force participation among women began a gradual decline, until the participation rate hit a recent low in 2015 of 56.7 percent.

Women's involvement in the labor market has changed in several notable ways over the past several decades. For example, women became much more likely to pursue higher levels of education: from 1970 to 2019, the proportion of women ages 25 to 64 in the labor force who held a college degree quadrupled, whereas the proportion of men with a college degree a little more than doubled over that time. Since 1970, women have become more likely to work full time and year round. Also, women with children have increased their participation in the labor force considerably. In addition, women's earnings as a proportion of men's earnings have grown over time: women working full time earned 62 percent of what men earned in 1979 and 82 percent in 2019. More recently, women in the baby-boom generation (defined as people born between 1946 and 1964) have begun to retire in large numbers, which has put downward pressure on their labor force participation rate over the past decade or so.

This report presents labor force and earnings data for women and men from the Current Population Survey (CPS), a national monthly survey of approximately 60,000 households conducted by the U.S. Census Bureau for the U.S. Bureau of Labor Statistics. Unless otherwise noted, data are annual averages from the CPS. (For a detailed description of the source of the data and an explanation of concepts and definitions used, see the technical notes.)

Selected demographic characteristics

Women's labor force participation was 57.4 percent in 2019, up from 57.1 percent in 2018. Men's labor force participation, which always has been much higher than that for women, was 69.2 percent in 2019, little changed from the previous year (69.1 percent). (See table 2.)

In 2019, the unemployment rate for women was 3.6 percent, down 0.2 percentage point from a year earlier. The rate for men was 3.7 percent in 2019, also down 0.2 percentage point from a year earlier. Women's unemployment rates varied considerably by race and ethnicity. In 2019, Asian women had the lowest rate (2.7 percent), followed by White women (3.2 percent). Unemployment rates for Hispanic or Latino women and Black or African American women were higher, at 4.7 percent and 5.6 percent, respectively. Men's unemployment rates exhibit a similar pattern. The rates for Asian men

(2.7 percent) and White men (3.3 percent) were below those for Hispanic men (4.0 percent) and Black men (6.6 percent). (See tables 2 and 3.)

Labor force participation varies by marital status and differs between women and men. Never-married women had the highest participation rate of all women, at 65.0 percent in 2019. Separated and divorced women were more likely to participate in the labor force (63.7 percent and 60.8 percent, respectively) than married women (58.6 percent). By contrast, married men were more likely to participate in the labor force (73.0 percent) than separated men (70.1 percent), never-married men (68.1 percent), and divorced men (64.7 percent). Labor force participation rates for widowed women and men, who tend to be older, were 19.8 percent and 24.2 percent, respectively. (See table 4.)

The labor force participation rate for women with children under 18 years of age was 72.4 percent in March 2019, lower than the rate of 93.5 percent for men with children under 18 years. Among mothers, the labor force participation rate for those with children 6 to 17 years old, at 77.0 percent, was considerably higher than for those with younger children. The rate for women with children under 6 years old was 66.4 percent, and the rate for women with children under 3 years old was 63.8 percent. By contrast, the labor force participation rate for fathers was fairly similar, regardless of the age of their children; the rate was 92.2 percent for fathers with children 6 to 17 years old, slightly lower than the rates for fathers of children under 6 years old (95.0 percent) and fathers of children under 3 years old (95.3 percent). (See tables 5 and 7; data were collected in the 2019 Annual Social and Economic Supplement to the CPS.)

Historically, unmarried mothers are much more likely to participate in the labor force than married mothers. In March 2019, 78.2 percent of unmarried mothers were in the labor force, compared with 70.1 percent of married mothers. (See table 6; data were collected in the 2019 Annual Social and Economic Supplement to the CPS.)

Educational attainment

The educational attainment of women ages 25 to 64 in the labor force has risen substantially over the past half century. In 2019, 45 percent of women ages 25 to 64 held a bachelor's degree and higher, compared with 11 percent in 1970. In 2019, 5.4 percent of women in the labor force had less than a high school diploma—that is, did not graduate from high school or earn a GED—down from 34 percent in 1970. (See tables 9A and 9B.)

Occupation and industry

Women accounted for 51.8 percent of all workers employed in management, professional, and related occupations in 2019, somewhat more than their share of total employment (47.0 percent). The share of women in specific occupations within this large category varied. For example, 18.7 percent of software developers, 27.6 percent of chief executives, and 36.4 percent of lawyers were women, whereas 88.9 percent of registered nurses, 80.5 percent of elementary and middle school teachers, and 61.7 percent of accountants and auditors were women. (See table 11.)

In 2019, Asian and White women were more likely to work in higher paying management, professional, and related occupations (53.3 percent and 46.1 percent, respectively) than were Black (37.2 percent) and Hispanic women (28.5 percent). However, Black (27.6 percent) and Hispanic (31.1 percent) women were more likely than Asian (20.2 percent) and White women (19.5 percent) to work in lower paying service occupations. (See table 12.)

By industry, women accounted for more than half of all workers within several sectors in 2019: education and health services (74.8 percent), other services (53.9 percent), financial activities (52.6 percent), and leisure and hospitality (51.2 percent). (Other services include repair and maintenance industries, personal and laundry services, membership

associations and organizations, and private households.) However, women were substantially underrepresented (relative to their share of total employment) in manufacturing (29.4 percent), agriculture (26.2 percent), transportation and utilities (24.1 percent), mining (15.8 percent), and construction (10.3 percent). (See table 14.)

Earnings

In 2019, women who worked full time in wage and salary jobs had median usual weekly earnings of \$821, which represented 82 percent of men's median weekly earnings (\$1,007). Among women, earnings were higher for Asians (\$1,025) than for Whites (\$840), Blacks (\$704), and Hispanics (\$642). Women-to-men earnings ratios were higher for Blacks (92 percent) and Hispanics (86 percent) than for Whites (81 percent) and Asians (77 percent). (See table 16; note that the comparisons of earnings in this report are on a broad level and do not control for many factors, like occupation, that may be important in explaining earnings differences.)

Women's median usual weekly earnings vary by educational attainment. In 2019, female full-time wage and salary workers age 25 and older with less than a high school diploma had earnings of \$494. Women who had only a high school diploma had earnings of \$633, those with an associate's degree had earnings of \$763, and those with a bachelor's degree and higher had earnings of \$1,195. (See table 17.)

By occupation, median usual weekly earnings of female full-time wage and salary workers were the highest in 2019 for chief executives (\$2,019), veterinarians (\$1,985), computer and information systems managers (\$1,892), physicians and surgeons (\$1,878), lawyers (\$1,878), and pharmacists (\$1,877). Earnings for men were highest for chief executives (\$2,509), physicians and surgeons (\$2,500), architectural and engineering managers (\$2,457), pharmacists (\$2,245), and lawyers (\$2,202). (See table 18.)

In 2019, 3 percent of women paid hourly rates had earnings at or below the prevailing federal minimum wage (\$7.25 per hour). Among women 25 years and older who were paid an hourly rate, 2 percent had earnings at or below the minimum wage, compared with about 6 percent of women ages 16 to 24. (See table 20.)

Hours of work

In 2019, 23 percent of employed women usually worked part time—that is, less than 35 hours per week. By comparison, 12 percent of employed men usually worked part time in 2019. The percentage of employed women working part time has not changed much over the past five decades. (See table 21.)

Of all women who worked at some point during the calendar year of 2018, 64 percent worked full time and year round (50 to 52 weeks), compared with 41 percent in 1970. The proportion of men who worked full time and year round also rose over the period, from 66 percent in 1970 to 76 percent in 2018. (See table 23; data were collected in the 1971 through 2019 Annual Social and Economic Supplements to the CPS and reflect earnings and work experience in the previous calendar year.)

Married-couple families

Among married-couple families, 53 percent had earnings from both the wife and the husband in 2018. This percentage, which has changed little over the past 10 years, is below the peak of 60 percent in the mid- to late 1990s but above the 44 percent seen in 1967. Couples in which only the husband worked for pay represented 18 percent of married-couple

families in 2018, versus 36 percent in 1967. (See table 24B; data were collected in the 1968 through 2019 Annual Social and Economic Supplements to the CPS and reflect earnings and work experience in the previous calendar year.)

The working poor

Among people who were in the labor force for at least 27 weeks in 2018, more women (3.9 million) than men (3.1 million) lived below the official poverty level. The working-poor rate (the ratio of the working poor to all individuals who were in the labor force for at least 27 weeks) was 5.3 percent for women and 3.7 percent for men. Black and Hispanic women were much more likely to be among the working poor than White or Asian women. The working-poor rates for Black and Hispanic women were 9.7 percent and 8.7 percent, respectively, higher than the rates of 4.5 percent for White women and 3.1 percent for Asian women. (See table 26; data are from the 2019 Annual Social and Economic Supplement to the CPS and reflect earnings and work experience in the previous calendar year.)

Worker displacement

From January 2017 through December 2019, 2.7 million workers age 20 and older were displaced from jobs they had held for at least 3 years; women accounted for 45 percent of those displaced. Labor market outcomes were similar for displaced women and men. Displaced women were about as likely as men to have found a new job in January 2020: the reemployment rate was 68 percent for women and 72 percent for men. Displaced women and men were also about equally likely to be unemployed in January 2020, at 13 percent and 12 percent, respectively. Twenty percent of displaced women and 16 percent of displaced men had left the labor force. (See table 27; data are from the January 2020 Displaced Worker, Employee Tenure, and Occupational Mobility Supplement to the CPS.)

Employee tenure

In January 2020, the median number of years that employed women had been with their employers was 3.9 years, about unchanged from January 2018. Median employee tenure (the point at which half of all workers had more tenure and half had less tenure) for men held at 4.3 years. (See table 28; data are from the January 2020 Displaced Worker, Employee Tenure, and Occupational Mobility Supplement to the CPS.)

School enrollment

Of the 3.2 million young people ages 16 to 24 who graduated from high school between January and October 2019, 66 percent (2.1 million) were enrolled in college in October of that year. For the 2019 high school graduates, the college enrollment rate was higher for young women (70 percent) than for young men (62 percent). (See table 29; data are from the October 2019 School Enrollment Supplement to the CPS.)

Among those enrolled in high school, young women were slightly more likely to be in the labor force (23.7 percent) in October 2019 than were young men (21.0 percent). Among college students, women were much more likely to participate in the labor force than men, at 53.6 percent and 46.1 percent, respectively. Among young people ages 16 to 24 who were not enrolled in school in October 2019, the unemployment rate for those without a high school diploma was 12.4 percent for young women and 16.1 percent for young men. In contrast, the unemployment rates for young women and men with at least a bachelor's degree were 4.8 percent and 5.8 percent, respectively. (See table 30; data are from the October 2019 School Enrollment Supplement to the CPS.)

Multiple jobholders and the self-employed

In 2019, 8.1 million workers had more than one job. Just over half (4.1 million) of these workers were women. The multiple jobholding rate for women, at 5.6 percent, was higher than that for men, at 4.7 percent. (See table 31.)

In 2019, 4.8 percent of working women in nonagricultural industries were self-employed, compared with 6.4 percent of men. Among the self-employed, 40.1 percent were women in 2019, compared with 26.8 percent in 1976. (See table 32.)

Foreign born

Foreign-born women were less likely than native-born women to be in the labor force in 2019 (54.8 percent, compared with 57.9 percent). By contrast, foreign-born men were more likely to be in the labor force (78.0 percent) than were native-born men (67.4 percent). The unemployment rate for foreign-born women, at 3.7 percent, was about the same as for native-born women, at 3.6 percent. At 2.7 percent, the unemployment rate for foreign-born men was lower than that of native-born men (4.0 percent). (See table 33.)

Union membership

In 2019, 9.7 percent of female wage and salary workers were members of unions, compared with 10.8 percent of their male counterparts. For both men and women, the union membership rate in 2019 was lower than in 1983 (the first year that union membership data were regularly collected in the CPS), but the rate for men fell by much more than did the rate for women. In 1983, union membership rates were 24.7 percent for men and 14.6 percent for women. (See table 34.)

Veterans

There were 1.1 million female veterans of the U.S. Armed Forces in the labor force in 2019. Women accounted for 12 percent of the 9.3 million veterans in the labor force. The unemployment rate for female veterans was 3.7 percent in 2019, and the rate for male veterans was 3.0 percent. (See table 35.)

People with disabilities

Of the 16.2 million women with disabilities in 2019, 2.9 million, or 17.8 percent, participated in the labor force. A little over half of women with disabilities (52 percent) were age 65 and older; labor force participation among this age group was 5.7 percent, compared with 31.0 percent for those ages 16 to 64. Among the 14.2 million men with disabilities, 24.3 percent participated in the labor force in 2019. Forty-seven percent of men with disabilities were age 65 and older. Among men in this age group, 10.8 percent were labor force participants, compared with 36.3 percent of men ages 16 to 64 with disabilities. Among people with a disability, the unemployment rate for women was 7.3 percent, nearly the same as that for men, at 7.4 percent, but more than twice the rates of women and men without a disability (3.5 percent and 3.6 percent, respectively). (See table 36.)

Statistical Tables

Table 1. Employment status of the civilian noninstitutional population, by age and gender, 2019 annual averages (Numbers in thousands)

Age	Civilian noninstitutional population	Civilian labor force						Not in labor force	
		Total	Percentage of population	Employed		Unemployed

2018	124,678	86,096	69.1	82,698	66.3	3,398	3.9	38,582		
2019	125,353	86,687	69.2	83,460	66.6	3,227	3.7	38,667		

Note: Revisions to population controls and other changes can affect the comparability of labor force levels over time. In recent years, for example, updated population controls have been introduced annually with the release of January data. Information about historical comparability is available online at www.bls.gov/cps/documentation.htm#comp.

(1) Refers to women in opposite-sex married couples only.

(2) Includes women who are never married; widowed; divorced; separated; and married, spouse absent; as well as women in same-sex marriages.

Note: Children are "own" children and include sons, daughters, stepchildren, or adopted children. Not included are nieces, nephews, grandchildren, and other related and unrelated children. Estimates for the race groups shown (White, Black or African American, and Asian) do not sum to totals because data are not presented for all races. People whose ethnicity is identified as Hispanic or Latino may be of any race. Dash indicates no data or data that do not meet publication criteria.

Mining and geological engineers, including mining safety engineers	8	-

See footnotes at end of table.

Table 11. Employed people, by detailed occupation and gender, 2019 annual averages (Numbers in thousands)

Occupation	Total employed	Percent women
Nuclear engineers	8	-
Petroleum engineers	24	-
Engineers, all other	582	13.9
Drafters	113	23.3
Engineering technicians, except drafters	496	19.8
Surveying and mapping technicians	53	6.8
Life, physical, and social science occupations	1,485	49.4
Agricultural and food scientists	37	-
Biological scientists	104	47.7
Conservation scientists and foresters	20	-
Medical scientists	170	51.8
Life scientists, all other	2	-
Astronomers and physicists	17	-
Atmospheric and space scientists	10	-
Chemists and materials scientists	97	42.5
Environmental scientists and geoscientists	119	33.0
Physical scientists, all other	298	43.7
Economists	35	-
Survey researchers	0	-
Psychologists	234	79.7
Sociologists	2	-
Urban and regional planners	25	-
Miscellaneous social scientists and related workers	39	-
Agricultural and food science technicians	20	-
Biological technicians	23	-
Chemical technicians	56	30.8
Geological and petroleum technicians	20	-
Nuclear technicians	3	-
Social science research assistants	1	-
Miscellaneous life, physical, and social science technicians	152	54.0
Community and social service occupations	2,717	67.5
Counselors	927	75.7

See footnotes at end of table.

Table 11. Employed people, by detailed occupation and gender, 2019 annual averages (Numbers in thousands)

Occupation	Total employed	Percent women
Social workers	823	81.9
Probation officers and correctional treatment specialists	97	44.6
Social and human service assistants	238	79.0
Miscellaneous community and social service specialists, including health educators and community health workers	78	70.8
Clergy	413	20.7
Directors, religious activities and education	72	48.6
Religious workers, all other	69	72.7
Legal occupations	1,955	52.7
Lawyers	1,240	36.4
Judicial law clerks	7	-
Judges, magistrates, and other judicial workers	70	52.5
Paralegals and legal assistants	444	89.6
Miscellaneous legal support workers	193	72.5
Education, training, and library occupations	9,455	73.6
Postsecondary teachers	1,386	47.4
Preschool and kindergarten teachers	655	98.7
Elementary and middle school teachers	3,604	80.5
Secondary school teachers	1,015	56.5
Special education teachers	331	86.7
Other teachers and instructors	1,017	64.6
Archivists, curators, and museum technicians	48	-
Librarians	179	79.9
Library technicians	33	-
Teacher assistants	999	89.7
Other education, training, and library workers	189	72.6
Arts, design, entertainment, sports, and media occupations	3,285	49.0
Artists and related workers	248	54.0
Designers	983	54.0
Actors	40	-
Producers and directors	186	42.5
Athletes, coaches, umpires, and related workers	345	35.3
Dancers and choreographers	23	-

See footnotes at end of table.

Table 11. Employed people, by detailed occupation and gender, 2019 annual averages (Numbers in thousands)

Occupation	Total employed	Percent women
Musicians, singers, and related workers	202	36.7
Entertainers and performers, sports and related workers, all other	50	32.8
Announcers	58	30.4
News analysts, reporters and correspondents	93	45.1
Public relations specialists	137	63.6
Editors	147	63.3
Technical writers	61	57.8
Writers and authors	225	63.5
Miscellaneous media and communication workers	118	66.4
Broadcast and sound engineering technicians and radio operators	119	12.0
Photographers	188	49.3
Television, video, and motion picture camera operators and editors	60	16.3
Media and communication equipment workers, all other	0	-
Healthcare practitioners and technical occupations	9,684	75.4
Chiropractors	61	28.0
Dentists	162	33.9
Dietitians and nutritionists	128	92.1
Optometrists	43	-
Pharmacists	341	60.4
Physicians and surgeons	1,098	40.8
Physician assistants	131	70.8
Podiatrists	10	-
Audiologists	14	-
Occupational therapists	136	88.0
Physical therapists	304	67.9
Radiation therapists	16	-
Recreational therapists	10	-
Respiratory therapists	112	66.8
Speech-language pathologists	180	95.8
Exercise physiologists	2	-
Therapists, all other	235	81.4
Veterinarians	104	68.3

See footnotes at end of table.

Table 11. Employed people, by detailed occupation and gender, 2019 annual averages (Numbers in thousands)

Occupation	Total employed	Percent women
Registered nurses	3,242	88.9
Nurse anesthetists	33	-
Nurse midwives	10	-
Nurse practitioners	225	87.8
Health diagnosing and treating practitioners, all other	35	-
Clinical laboratory technologists and technicians	323	73.8
Dental hygienists	208	96.0
Diagnostic related technologists and technicians	398	70.0
Emergency medical technicians and paramedics	206	33.5
Health practitioner support technologists and technicians	710	79.0
Licensed practical and licensed vocational nurses	687	90.8
Medical records and health information technicians	185	93.3
Opticians, dispensing	49	-
Miscellaneous health technologists and technicians	152	65.0
Other healthcare practitioners and technical occupations	133	49.5
Service occupations	26,978	57.6
Healthcare support occupations	3,758	86.9
Nursing, psychiatric, and home health aides	2,086	88.3
Occupational therapy assistants and aides	29	-
Physical therapist assistants and aides	101	63.4
Massage therapists	183	83.6
Dental assistants	284	94.9
Medical assistants	596	92.7
Medical transcriptionists	41	-
Pharmacy aides	49	-
Veterinary assistants and laboratory animal caretakers	59	82.7
Phlebotomists	124	89.3
Miscellaneous healthcare support occupations, including medical equipment preparers	206	68.1
Protective service occupations	3,128	22.1
First-line supervisors of correctional officers	44	-
First-line supervisors of police and detectives	83	9.9
First-line supervisors of fire fighting and prevention workers	42	-

See footnotes at end of table.

Table 11. Employed people, by detailed occupation and gender, 2019 annual averages (Numbers in thousands)

Occupation	Total employed	Percent women
First-line supervisors of protective service workers, all other	78	25.0
Firefighters	318	3.3
Fire inspectors	21	-
Bailiffs, correctional officers, and jailers	372	30.1
Detectives and criminal investigators	164	23.0
Fish and game wardens	4	-
Parking enforcement workers	4	-
Police and sheriff's patrol officers	716	17.6
Transit and railroad police	5	-
Animal control workers	10	-
Private detectives and investigators	97	47.6
Security guards and gaming surveillance officers	937	21.5
Crossing guards	52	48.6
Transportation security screeners	43	-
Lifeguards and other recreational, and all other protective service workers	139	49.4
Food preparation and serving related occupations	8,378	54.5
Chefs and head cooks	474	22.0
First-line supervisors of food preparation and serving workers	597	57.4
Cooks	2,031	41.7
Food preparation workers	1,079	59.3
Bartenders	464	53.1
Combined food preparation and serving workers, including fast food	372	62.4
Counter attendants, cafeteria, food concession, and coffee shop	200	59.2
Waiters and waitresses	2,038	71.3
Food servers, nonrestaurant	191	66.1
Dining room and cafeteria attendants and bartender helpers	338	40.5
Dishwashers	264	21.0
Hosts and hostesses, restaurant, lounge, and coffee shop	322	82.1
Food preparation and serving related workers, all other	7	-
Building and grounds cleaning and maintenance occupations	5,746	42.0
First-line supervisors of housekeeping and janitorial workers	352	41.6
First-line supervisors of landscaping, lawn service, and groundskeeping workers	285	9.3

See footnotes at end of table.

Table 11. Employed people, by detailed occupation and gender, 2019 annual averages (Numbers in thousands)

Occupation	Total employed	Percent women
Janitors and building cleaners	2,265	37.2
Maids and housekeeping cleaners	1,475	89.0
Pest control workers	96	6.7
Grounds maintenance workers	1,273	6.3
Personal care and service occupations	5,968	76.9
First-line supervisors of gaming workers	211	43.2
First-line supervisors of personal service workers	213	68.5
Animal trainers	63	58.6
Nonfarm animal caretakers	296	75.1
Gaming services workers	93	45.1
Motion picture projectionists	1	-
Ushers, lobby attendants, and ticket takers	38	-
Miscellaneous entertainment attendants and related workers	210	39.3
Embalmers and funeral attendants	15	-
Morticians, undertakers, and funeral directors	26	-
Barbers	137	23.0
Hairdressers, hairstylists, and cosmetologists	803	92.3
Miscellaneous personal appearance workers	409	85.5
Baggage porters, bellhops, and concierges	92	24.3
Tour and travel guides	61	43.6
Childcare workers	1,193	93.4
Personal care aides	1,458	85.6
Recreation and fitness workers	440	63.3
Residential advisors	30	-
Personal care and service workers, all other	178	61.7
Sales and office occupations	33,370	60.6
Sales and related occupations	15,582	48.8
First-line supervisors of retail sales workers	3,232	45.5
First-line supervisors of non-retail sales workers	1,247	27.1
Cashiers	3,164	71.2
Counter and rental clerks	97	42.6
Parts salespersons	142	12.0

See footnotes at end of table.

Table 11. Employed people, by detailed occupation and gender, 2019 annual averages (Numbers in thousands)

Occupation	Total employed	Percent women
Retail salespersons	3,105	48.5
Advertising sales agents	190	49.7
Insurance sales agents	595	50.6
Securities, commodities, and financial services sales agents	231	30.0
Travel agents	82	86.0
Sales representatives, services, all other	557	30.4
Sales representatives, wholesale and manufacturing	1,281	27.2
Models, demonstrators, and product promoters	62	73.3
Real estate brokers and sales agents	1,095	58.9
Sales engineers	35	-
Telemarketers	49	-
Door-to-door sales workers, news and street vendors, and related workers	135	59.5
Sales and related workers, all other	284	42.9
Office and administrative support occupations	17,789	70.9
First-line supervisors of office and administrative support workers	1,306	68.5
Switchboard operators, including answering service	21	-
Telephone operators	42	-
Communications equipment operators, all other	12	-
Bill and account collectors	116	80.8
Billing and posting clerks	459	89.5
Bookkeeping, accounting, and auditing clerks	1,015	88.5
Gaming cage workers	13	-
Payroll and timekeeping clerks	155	85.2
Procurement clerks	29	-
Tellers	294	84.7
Financial clerks, all other	119	59.7
Brokerage clerks	3	-
Correspondence clerks	5	-
Court, municipal, and license clerks	95	75.3
Credit authorizers, checkers, and clerks	41	-
Customer service representatives	2,552	64.2
Eligibility interviewers, government programs	70	80.1

See footnotes at end of table.

Table 11. Employed people, by detailed occupation and gender, 2019 annual averages (Numbers in thousands)

Occupation	Total employed	Percent women
File clerks	175	83.1
Hotel, motel, and resort desk clerks	116	74.6
Interviewers, except eligibility and loan	131	85.5
Library assistants, clerical	88	81.4
Loan interviewers and clerks	116	76.8
New accounts clerks	22	-
Order clerks	112	53.3
Human resources assistants, except payroll and timekeeping	60	81.2
Receptionists and information clerks	1,288	89.3
Reservation and transportation ticket agents and travel clerks	119	58.9
Information and record clerks, all other	99	76.9
Cargo and freight agents	20	-
Couriers and messengers	402	20.7
Dispatchers	261	53.1
Meter readers, utilities	17	-
Postal service clerks	96	55.1
Postal service mail carriers	331	36.6
Postal service mail sorters, processors, and processing machine operators	76	53.3
Production, planning, and expediting clerks	297	57.7
Shipping, receiving, and traffic clerks	563	34.9
Stock clerks and order fillers	1,512	37.5
Weighers, measurers, checkers, and samplers, recordkeeping	66	47.3
Secretaries and administrative assistants	2,688	93.2
Computer operators	72	47.5
Data entry keyers	250	73.4
Word processors and typists	57	86.0
Desktop publishers	0	-
Insurance claims and policy processing clerks	269	81.7
Mail clerks and mail machine operators, except postal service	68	49.8
Office clerks, general	1,355	82.7
Office machine operators, except computer	32	-
Proofreaders and copy markers	7	-

See footnotes at end of table.

Table 11. Employed people, by detailed occupation and gender, 2019 annual averages (Numbers in thousands)

Occupation	Total employed	Percent women
Statistical assistants	58	42.8
Office and administrative support workers, all other	618	74.6
Natural resources, construction, and maintenance occupations	14,343	5.4
Farming, fishing, and forestry occupations	1,156	25.2
First-line supervisors of farming, fishing, and forestry workers	51	9.4
Agricultural inspectors	18	-
Animal breeders	10	-
Graders and sorters, agricultural products	88	64.5
Miscellaneous agricultural workers	866	24.2
Fishers and related fishing workers	36	-
Hunters and trappers	0	-
Forest and conservation workers	21	-
Logging workers	66	1.8
Construction and extraction occupations	8,325	3.5
First-line supervisors of construction trades and extraction workers	682	3.4
Boilermakers	24	-
Brickmasons, blockmasons, and stonemasons	152	0.7
Carpenters	1,292	2.8
Carpet, floor, and tile installers and finishers	170	1.9
Cement masons, concrete finishers, and terrazzo workers	65	3.0
Construction laborers	2,051	3.5
Paving, surfacing, and tamping equipment operators	22	-
Pile-driver operators	1	-
Operating engineers and other construction equipment operators	375	1.7
Drywall installers, ceiling tile installers, and tapers	178	0.7
Electricians	914	2.2
Glaziers	38	-
Insulation workers	59	3.7
Painters, construction and maintenance	599	8.9
Paperhangers	7	-
Pipeliners, plumbers, pipefitters, and steamfitters	637	2.7
Plasterers and stucco masons	23	-

See footnotes at end of table.

Table 11. Employed people, by detailed occupation and gender, 2019 annual averages (Numbers in thousands)

Occupation	Total employed	Percent women
Reinforcing iron and rebar workers	6	-
Roofers	222	1.9
Sheet metal workers	140	6.8
Structural iron and steel workers	66	0.9
Solar photovoltaic installers	18	-
Helpers, construction trades	50	5.7
Construction and building inspectors	105	10.4
Elevator installers and repairers	20	-
Fence erectors	41	-
Hazardous materials removal workers	40	-
Highway maintenance workers	113	3.6
Rail-track laying and maintenance equipment operators	4	-
Septic tank servicers and sewer pipe cleaners	8	-
Miscellaneous construction and related workers	32	-
Derrick, rotary drill, and service unit operators, oil, gas, and mining	29	-
Earth drillers, except oil and gas	22	-
Explosives workers, ordnance handling experts, and blasters	8	-
Mining machine operators	56	2.0
Roof bolters, mining	1	-
Roustabouts, oil and gas	8	-
Helpers-extraction workers	2	-
Other extraction workers	46	-
Installation, maintenance, and repair occupations	4,862	3.9
First-line supervisors of mechanics, installers, and repairers	272	8.2
Computer, automated teller, and office machine repairers	184	14.0
Radio and telecommunications equipment installers and repairers	131	7.6
Avionics technicians	13	-
Electric motor, power tool, and related repairers	16	-
Electrical and electronics installers and repairers, transportation equipment	7	-
Electrical and electronics repairers, industrial and utility	17	-
Electronic equipment installers and repairers, motor vehicles	9	-
Electronic home entertainment equipment installers and repairers	32	-

See footnotes at end of table.

Table 11. Employed people, by detailed occupation and gender, 2019 annual averages (Numbers in thousands)

Occupation	Total employed	Percent women
Security and fire alarm systems installers	58	2.9
Aircraft mechanics and service technicians	152	4.8
Automotive body and related repairers	125	2.2
Automotive glass installers and repairers	21	-
Automotive service technicians and mechanics	880	1.9
Bus and truck mechanics and diesel engine specialists	347	1.5
Heavy vehicle and mobile equipment service technicians and mechanics	211	1.5
Small engine mechanics	45	-
Miscellaneous vehicle and mobile equipment mechanics, installers, and repairers	73	1.3
Control and valve installers and repairers	22	-
Heating, air conditioning, and refrigeration mechanics and installers	466	1.5
Home appliance repairers	51	5.7
Industrial and refractory machinery mechanics	408	4.1
Maintenance and repair workers, general	579	3.8
Maintenance workers, machinery	21	-
Millwrights	52	5.0
Electrical power-line installers and repairers	133	1.6
Telecommunications line installers and repairers	184	4.5
Precision instrument and equipment repairers	69	11.6
Wind turbine service technicians	2	-
Coin, vending, and amusement machine servicers and repairers	28	-
Commercial divers	2	-
Locksmiths and safe repairers	32	-
Manufactured building and mobile home installers	5	-
Riggers	12	-
Signal and track switch repairers	7	-
Helpers--installation, maintenance, and repair workers	19	-
Other installation, maintenance, and repair workers	179	8.0
Production, transportation, and material moving occupations	18,628	23.0
Production occupations	8,565	28.6
First-line supervisors of production and operating workers	844	21.3
Aircraft structure, surfaces, rigging, and systems assemblers	8	-

See footnotes at end of table.

Table 11. Employed people, by detailed occupation and gender, 2019 annual averages (Numbers in thousands)

Occupation	Total employed	Percent women
Electrical, electronics, and electromechanical assemblers	101	50.4
Engine and other machine assemblers	9	-
Structural metal fabricators and fitters	25	-
Miscellaneous assemblers and fabricators	1,001	36.4
Bakers	228	60.4
Butchers and other meat, poultry, and fish processing workers	297	26.9
Food and tobacco roasting, baking, and drying machine operators and tenders	17	-
Food batchmakers	82	62.7
Food cooking machine operators and tenders	3	-
Food processing workers, all other	147	33.8
Computer control programmers and operators	108	3.7
Extruding and drawing machine setters, operators, and tenders, metal and plastic	13	-
Forging machine setters, operators, and tenders, metal and plastic	7	-
Rolling machine setters, operators, and tenders, metal and plastic	13	-
Cutting, punching, and press machine setters, operators, and tenders, metal and plastic	70	15.8
Drilling and boring machine tool setters, operators, and tenders, metal and plastic	6	-
Grinding, lapping, polishing, and buffing machine tool setters, operators, and tenders, metal and plastic	44	-
Lathe and turning machine tool setters, operators, and tenders, metal and plastic	6	-
Milling and planing machine setters, operators, and tenders, metal and plastic	5	-
Machinists	375	5.6
Metal furnace operators, tenders, pourers, and casters	23	-
Model makers and patternmakers, metal and plastic	5	-
Molders and molding machine setters, operators, and tenders, metal and plastic	45	-
Multiple machine tool setters, operators, and tenders, metal and plastic	2	-
Tool and die makers	55	4.8
Welding, soldering, and brazing workers	592	5.3
Heat treating equipment setters, operators, and tenders, metal and plastic	4	-
Layout workers, metal and plastic	10	-
Plating and coating machine setters, operators, and tenders, metal and plastic	13	-
Tool grinders, filers, and sharpeners	1	-
Metal workers and plastic workers, all other	392	19.5
Prepress technicians and workers	27	-

See footnotes at end of table.

Table 11. Employed people, by detailed occupation and gender, 2019 annual averages (Numbers in thousands)

Occupation	Total employed	Percent women
Printing press operators	133	22.1
Print binding and finishing workers	14	-
Laundry and dry-cleaning workers	134	75.4
Pressers, textile, garment, and related materials	28	-
Sewing machine operators	179	72.4
Shoe and leather workers and repairers	7	-
Shoe machine operators and tenders	5	-
Tailors, dressmakers, and sewers	86	75.4
Textile bleaching and dyeing machine operators and tenders	2	-
Textile cutting machine setters, operators, and tenders	4	-
Textile knitting and weaving machine setters, operators, and tenders	9	-
Textile winding, twisting, and drawing out machine setters, operators, and tenders	10	-
Extruding and forming machine setters, operators, and tenders, synthetic and glass fibers	1	-
Fabric and apparel patternmakers	0	-
Upholsterers	30	-
Textile, apparel, and furnishings workers, all other	13	-
Cabinetmakers and bench carpenters	65	8.0
Furniture finishers	18	-
Model makers and patternmakers, wood	0	-
Sawing machine setters, operators, and tenders, wood	33	-
Woodworking machine setters, operators, and tenders, except sawing	12	-
Woodworkers, all other	23	-
Power plant operators, distributors, and dispatchers	43	-
Stationary engineers and boiler operators	52	3.0
Water and wastewater treatment plant and system operators	110	8.0
Miscellaneous plant and system operators	51	4.9
Chemical processing machine setters, operators, and tenders	73	11.1
Crushing, grinding, polishing, mixing, and blending workers	90	7.5
Cutting workers	60	12.7
Extruding, forming, pressing, and compacting machine setters, operators, and tenders	27	-
Furnace, kiln, oven, drier, and kettle operators and tenders	17	-
Inspectors, testers, sorters, samplers, and weighers	802	35.6

See footnotes at end of table.

Table 11. Employed people, by detailed occupation and gender, 2019 annual averages (Numbers in thousands)

Occupation	Total employed	Percent women
Jewelers and precious stone and metal workers	40	-
Medical, dental, and ophthalmic laboratory technicians	91	60.0
Packaging and filling machine operators and tenders	262	54.6
Painting workers	171	10.6
Photographic process workers and processing machine operators	13	-
Semiconductor processors	0	-
Adhesive bonding machine operators and tenders	10	-
Cleaning, washing, and metal pickling equipment operators and tenders	2	-
Cooling and freezing equipment operators and tenders	2	-
Etchers and engravers	8	-
Molders, shapers, and casters, except metal and plastic	31	-
Paper goods machine setters, operators, and tenders	24	-
Tire builders	8	-
Helpers--production workers	54	32.6
Production workers, all other	1,141	28.6
Transportation and material moving occupations	10,063	18.2
Supervisors of transportation and material moving workers	206	21.5
Aircraft pilots and flight engineers	141	7.5
Air traffic controllers and airfield operations specialists	43	-
Flight attendants	110	81.3
Ambulance drivers and attendants, except emergency medical technicians	15	-
Bus drivers	546	45.3
Driver/sales workers and truck drivers	3,608	6.7
Taxi drivers and chauffeurs	790	16.8
Motor vehicle operators, all other	66	17.2
Locomotive engineers and operators	42	-
Railroad brake, signal, and switch operators	2	-
Railroad conductors and yardmasters	52	2.4
Subway, streetcar, and other rail transportation workers	9	-
Sailors and marine oilers	19	-
Ship and boat captains and operators	45	-
Ship engineers	5	-

See footnotes at end of table.

Table 11. Employed people, by detailed occupation and gender, 2019 annual averages (Numbers in thousands)

Occupation	Total employed	Percent women
Bridge and lock tenders	0	-
Parking lot attendants	83	14.8
Automotive and watercraft service attendants	88	18.4
Transportation inspectors	42	-
Transportation attendants, except flight attendants	43	-
Other transportation workers	38	-
Conveyor operators and tenders	2	-
Crane and tower operators	63	5.2
Dredge, excavating, and loading machine operators	28	-
Hoist and winch operators	9	-
Industrial truck and tractor operators	571	8.7
Cleaners of vehicles and equipment	344	16.0
Laborers and freight, stock, and material movers, hand	2,235	21.5
Machine feeders and offbearers	24	-
Packers and packagers, hand	628	54.8
Pumping station operators	16	-
Refuse and recyclable material collectors	99	7.6
Mine shuttle car operators	2	-
Tank car, truck, and ship loaders	6	-
Material moving workers, all other	41	-

2019	81.5	81.1	91.5	76.7	85.9

Note: The comparability of historical labor force data has been affected at various times by methodological and conceptual changes in the Current Population Survey (CPS). For an explanation, see the historical comparability section of the household data technical documentation provided at www.bls.gov/cps/documentation.htm#comp. Beginning in 2003, estimates for the groups shown (White, Black or African American, and Asian) include people who selected that race group only; people who selected more than one race group are not included. Prior to 2003, people who reported more than one race were included in the group they identified as the main race. Data for 2000 to 2002 are for the category Asians and Pacific Islanders. Starting in 2003, Asians constituted a separate category. For more information, see the historical comparability documentation. People whose ethnicity is identified as Hispanic or Latino may be of any race.

Dashes indicate that data for Asians were not tabulated prior to 2000.

Data exclude all self-employed people, both those with incorporated and unincorporated businesses.

Hispanic or Latino ethnicity	17,941	292	1.6	77	215

See footnotes at end of table.

Table 20. Wage and salary workers paid hourly rates with earnings at or below prevailing federal minimum wage, by selected characteristics, 2019 annual averages (Numbers in thousands)

Characteristic	Workers paid hourly rates				
	Total	Total at or below prevailing federal minimum wage			
		Total	Percentage of hourly paid workers	At prevailing federal minimum wage	Below prevailing federal minimum wage
Women	8,223	195	2.4	52	143
Men	9,717	97	1.0	24	72
Full- and part-time status(2)					
Full-time workers	62,450	717	1.1	98	618
Women	28,360	460	1.6	78	383
Men	34,090	256	0.8	21	236
Part-time workers	19,730	886	4.5	294	592
Women	12,952	607	4.7	190	417
Men	6,778	279	4.1	104	175

(1) Estimates for the race groups—White, Black or African American, and Asian—do not sum to totals because data are not presented for all races. People whose ethnicity is identified as Hispanic or Latino may be of any race.

(2) The distinction between full- and part-time workers is based on hours usually worked. These data will not sum to totals because full- or part-time status on the principal job is not identifiable for a small number of multiple jobholders. Full time is 35 hours or more per week; part time is less than 35 hours.

Note: Data exclude all self-employed persons whether or not their businesses are incorporated.

Note: These data reflect work experience for the entire year.

The 2013 data in this report, collected in the 2014 ASEC, are based on fewer sample responses than in recent years. Approximately three-eighths of the 2014 CPS ASEC sample was used to test redesigned questions on income and health insurance coverage; this portion of the sample was not used to generate the estimates in this table.

(1) Number below the poverty level as a percentage of the total in the labor force for 27 or more weeks.

Note: These data reflect the earnings and work experience for the entire year. Estimates for the race groups shown (White, Black or African American, and Asian) do not sum to totals because data are not presented for all races. People whose ethnicity is identified as Hispanic or Latino may be of any race. Dash indicates no data or data where labor force base is less than 80,000.

Table 30. Labor force status of people 16 to 24 years old, by school enrollment, gender, and educational attainment, October 2019 (Numbers in thousands)

Characteristic	Civilian noninstitutional population	Civilian labor force						Not in labor force	
		Total	Percentage of population	Employed		Unemployed			
				Total	Percentage of population	Total	Percentage of labor force		
Women	6,620	3,545	53.6	3,427	51.8	118	3.3	3,075	
Men	5,530	2,548	46.1	2,405	43.5	143	5.6	2,982	
Not enrolled in school	16,192	13,142	81.2	12,011	74.2	1,131	8.6	3,050	
Women	7,680	6,000	78.1	5,562	72.4	438	7.3	1,680	
Less than a high school diploma	855	449	52.6	394	46.1	56	12.4	405	
High school graduates, no college(2)	3,268	2,399	73.4	2,186	66.9	214	8.9	869	
Some college or associate's degree	1,971	1,668	84.6	1,570	79.7	97	5.8	304	
Bachelor's degree and higher	1,586	1,484	93.5	1,413	89.0	71	4.8	102	
Men	8,512	7,142	83.9	6,449	75.8	693	9.7	1,370	
Less than a high school diploma	1,116	712	63.9	598	53.6	115	16.1	403	
High school graduates, no college(2)	4,369	3,740	85.6	3,320	76.0	420	11.2	629	
Some college or associate's degree	1,990	1,743	87.6	1,640	82.4	103	5.9	247	
Bachelor's degree and higher	1,037	946	91.2	891	85.9	55	5.8	91	

(1) Includes a small number of people enrolled in grades below high school.
 (2) Includes those who have earned a high school diploma or the equivalent.

Note: Sums of individual items may not equal totals because of rounding.

(1) The native born are people who were born in the United States or one of its outlying areas, such as Puerto Rico or Guam, or who were born abroad of at least one parent who was a U.S. citizen.

(2) The foreign born are those residing in the United States who were not U.S. citizens at birth. That is, they were born outside the United States or one of its outlying areas, such as Puerto Rico or Guam, to parents who were not U.S. citizens. This group includes legally admitted immigrants, refugees, students, temporary workers, and undocumented immigrants. The survey data, however, do not separately identify the number of people in these categories.

Not in labor force	79,367	52,898	26,469	66.6

Note: Veterans are men and women who served on active duty in the U.S. Armed Forces and were not on active duty at the time of the survey. Nonveterans never served on active duty in the U.S. Armed Forces. Veterans could have served anywhere in the world during these periods of service: Gulf War era II (September 2001–present), Gulf War era I (August 1990–August 2001), Vietnam era (August 1964–April 1975), Korean War (July 1950–January 1955), World War II (December 1941–December 1946), and other service periods (all other time periods). Veterans are counted in only one period of service, their most recent wartime period. Veterans who served in both a wartime period and any other service period are classified in the wartime period.

Technical Notes

The estimates in this report were obtained from the Current Population Survey (CPS), a national monthly sample survey of approximately 60,000 eligible households that provides a wide range of information on the labor force, employment, and unemployment. The survey is conducted for the U.S. Bureau of Labor Statistics (BLS) by the U.S. Census Bureau, using a scientifically selected national sample with coverage in all 50 states and the District of Columbia.

Information in this report will be made available upon request to individuals with sensory impairments. Voice phone: (202) 691-5200. Federal Relay Service: 1-800-877-8339. Material in this report is in the public domain and may be reproduced without permission.

Concepts and definitions

Children refers to one's own children under age 18 who live in the household. Included are sons, daughters, stepchildren, and adopted children. Not included are nieces, nephews, grandchildren, other related children, and all unrelated children living in the household.

The *civilian labor force* includes all people classified as employed or unemployed.

The *civilian labor force participation rate* represents the number of people in the civilian labor force as a percentage of the civilian noninstitutional population.

The *civilian noninstitutional population* is made up of people 16 years of age and older residing in any of the 50 states or the District of Columbia who are not confined to institutions, such as nursing homes and prisons, and who are not on Active Duty in the Armed Forces.

Disability status is determined in the CPS through a set of six questions. The questions are about physical, mental, or emotional conditions that cause serious difficulty with daily activities. For each of the questions, interviewers ask the respondent whether anyone in the household has the condition described, and if the respondent replies "yes," he or she is then asked to identify everyone in the household who has the condition. People are classified as having a disability if there is a response of "yes" to any of these questions. More information, including the wording of the six questions used to identify people with a disability, is available at https://www.bls.gov/cps/cpsdisability_faq.htm.

Displaced workers are wage and salary workers 20 years of age and older who lost or left jobs because their plant or company closed or moved, there was insufficient work for them to do, or their position or shift was abolished. Data are presented for long-tenured displaced workers—those who had worked for their employer for 3 or more years at the time of displacement. All self-employed workers are excluded, both those with incorporated businesses and those with unincorporated businesses. Data are collected through a biennial supplement to the January CPS.

The *employed* people are those who, during the survey reference week (which is generally the week including the 12th day of the month), (a) did any work at all as paid employees, (b) worked in their own business or profession or on their own farm, or (c) worked 15 or more hours as unpaid workers in a family member's business. People who were temporarily absent from their jobs or business because of illness, vacation, a labor dispute, or another reason also are counted as employed.

The *employment-population ratio* represents the number of employed people as a percentage of the population.

The *foreign born* are people residing in the United States who were not U.S. citizens at birth. That is, they were born outside the United States or one of its outlying areas (such as Puerto Rico or Guam), and neither parent was a U.S. citizen. The foreign-born population includes legally admitted immigrants; refugees; temporary residents, such as students and temporary workers; and undocumented immigrants. The survey does not specifically identify people in these categories, however.

The *native born* are people born in the United States or one of its outlying areas or, if born abroad, had at least one parent who was a U.S. citizen.

Hispanic or Latino ethnicity refers to people who identified themselves in the survey process as being of Hispanic, Latino, or Spanish origin. People who identify themselves as Hispanic or Latino may be of any race and are included in estimates for the race groups (White, Black or African American, and Asian) in addition to being shown separately.

Hours at work reflects the number of hours actually worked (at all jobs) during the survey reference week, which is generally the week including the 12th day of the month. For example, people who normally work 40 hours a week but were off for 8 hours during the Columbus Day holiday would be reported as working 32 hours, even if they were paid for the holiday. (See related information on usual full- or part-time status.)

Married-couple families refers to opposite-sex married spouses (one of whom is the householder) residing together and any of their family members residing in the household.

- The *householder* is the person (or one of the people) in whose name the housing unit is owned or rented and, therefore, is the family reference person.

Workers paid at or below the prevailing federal minimum wage include only workers who are paid hourly rates. Salaried workers and other workers who are not paid by the hour are not included, even though some have earnings that, if converted to hourly rates, would be at or below the minimum wage. The estimates of workers paid at or below the federal minimum wage in this report are based solely on whether the hourly wage they report (which does not include overtime pay, tips, or commissions) is at or below the federal minimum wage. Some respondents might round hourly earnings when answering survey questions. As a result, some workers might report having hourly earnings above or below the federal minimum wage when, in fact, they earn the minimum wage.

Some workers who reported earnings below the prevailing federal minimum wage may not be covered by federal or state minimum wage laws because of exclusions and exemptions in the statutes. Thus, the presence of workers with hourly earnings below the federal minimum wage does not necessarily indicate violations of the federal Fair Labor Standards Act (FLSA) or state statutes in cases where such standards apply. The CPS does not include questions on whether workers are covered by the minimum wage provisions of the FLSA or by individual state or local minimum wage laws.

The estimates presented in this report likely understate the actual number of workers with hourly earnings at or below the minimum wage. BLS does not routinely estimate the hourly earnings of workers not paid by the hour because there are data quality concerns associated with constructing such an estimate.

People *not in the labor force* are those who are neither employed nor unemployed.

Information on *occupation and industry* applies to the job held during the reference week. People with two or more jobs are classified into the occupation and industry in which they worked the greatest number of hours. The occupational and industry classification of CPS data is based on the 2010 Census occupational classification system and the 2012 Census industrial classification system, which are derived from the 2010 Standard Occupation Classification (SOC) and the 2012 North American Industry Classification System (NAICS), respectively. Additional information about these classifications is available online at <https://www.bls.gov/cps/documentation.htm#oi>.

Poverty classification statistics presented in this report are based on definitions developed by the Social Security Administration in 1964 and revised by federal interagency committees in 1969 and 1981. These definitions originally were based on the Department of Agriculture's Economy Food Plan and reflected the different consumption requirements of families, predicated on the basis of factors such as family size and the number of children under 18 years of age.

The actual poverty thresholds vary because of the makeup of the family. In 2018, the weighted average poverty threshold for a family of four was \$25,701; for a family of nine or more people, the threshold was \$51,393; and for one person (unrelated individual), it was \$12,784. Poverty thresholds are updated each year to reflect changes in the Consumer Price Index for All Urban Consumers (CPI-U). Thresholds do not vary geographically. (For more information, see "Income and Poverty in the United States: 2018," <https://www.census.gov/library/publications/2019/demo/p60-266.html>.)

Race is reported by the household respondent. In accordance with the Office of Management and Budget standards, White, Black or African American, and Asian are terms used to describe a person's race. Beginning in 2003, people in these categories are those who selected that race group only. Those who identify multiple race groups are categorized as people of Two or More Races. Before 2003, people identified one group as their main race. More information on the 2003 changes to questions on race is available at <https://www.bls.gov/cps/rvcps03.pdf>. Data for other race groups—American Indians and Alaska Natives, and Native Hawaiians and Other Pacific Islanders—and for people of Two or More Races are included in totals but not separately identified in this report because the number of survey respondents is too small to develop estimates of publication quality.

Self-employed workers are those who work for profit or fees in their own business, profession, trade, or farm. Estimates of the self-employed in this report reflect only people whose businesses are unincorporated. Self-employed people whose businesses are incorporated are included with wage and salary workers, unless otherwise specified.

Employee tenure is a measure of how long wage and salary workers had been with their current employer at the time of the survey. Tenure is presented in median years; the median is the point at which half of all workers had more tenure and half had less. Data refer to the sole or principal job of full- and part-time workers. All self-employed workers are excluded, both those with incorporated businesses and those with unincorporated businesses. The data are collected through a biennial supplement to the January CPS.

The *unemployed* are people who had no employment during the survey reference week, were available for work (except if they had a temporary illness), and had made specific efforts to find employment sometime during the 4-week period ending with the survey reference week. People who were waiting to be recalled to a job from which they had been laid off need not have been looking for work to be classified as unemployed.

The *unemployment rate* represents the number of unemployed people as a percentage of the civilian labor force.

Union membership refers to members of a labor union or of an employee association similar to a union. The data are tabulated from one-quarter of the CPS monthly sample and are limited to wage and salary workers. All self-employed workers are excluded, both those with incorporated businesses and those with unincorporated businesses.

Usual full- or part-time status is based on the number of hours people usually work per week, regardless of the number of hours worked in the reference week. Full-time workers are those who usually work 35 or more hours per week (at all jobs combined). Part-time workers are those who usually work less than 35 hours per week (at all jobs).

Usual weekly earnings reflect earnings before taxes and other deductions and include any overtime pay, commissions, or tips usually received (at the main job in the case of multiple jobholders). Since January 1994, respondents have been asked to identify the easiest way for them to report earnings (hourly, weekly, biweekly, twice monthly, monthly, annually, or other) and how much they usually earn in the reported time period. Earnings reported on a basis other than weekly are converted to a weekly equivalent. The term "usual" is determined by each respondent's own understanding of the term. If the respondent asks for a definition of "usual," interviewers are instructed to define the term as more than half the weeks worked during the past 4 or 5 months.

Earnings estimates are presented as median usual weekly earnings of full-time wage and salary workers. The median is the point at which half of all workers had higher earnings and half had lower earnings.

Veterans are men and women 18 years or older who previously served on Active Duty in the U.S. Armed Forces and who were civilians at the time they were surveyed. People who are on Active Duty at the time of the survey are outside the scope of the survey and thus not in the estimates shown here. Nonveterans are men and women who never served on Active Duty in the U.S. Armed Forces.

Wage and salary workers are people age 16 and older who receive wages, salaries, commissions, tips, payment in kind, or piece rates from a private-sector employer or from a local, state, or federal government agency or entity. This includes paid employees of charities, nonprofits, and religious and civic organizations. This group also generally includes the incorporated self-employed because, legally, they are paid employees of a corporation. (Data on union membership, earnings, tenure, and displacement of wage and salary workers exclude all self-employed workers, both those with incorporated businesses and those with unincorporated businesses.)

Work experience data reflect work activity during the calendar year and are obtained from the Annual Social and Economic Supplement (ASEC) to the CPS. Estimates of people who worked are based on "yes" responses to the following questions in the ASEC: "Did you work at a job or business at any time during [the survey reference year]?" or "Did you do any temporary, part-time, or seasonal work even for a few days during [the survey reference year]?" Because the reference period is a full year, the number of people with some employment exceeds the level for any given month, which is based on a 1-week reference period, and the corresponding annual averages of monthly estimates.

Workers paid hourly rates are wage and salary workers who report that they are paid by the hour on their main job. Historically, workers paid an hourly wage have made up approximately three-fifths of all wage and salary workers.

The *working poor* are people who spent at least 27 weeks in the labor force (that is, working or looking for work) but whose incomes still fell below the official poverty level. The working-poor rate is the number of individuals in the labor force for at least 27 weeks whose incomes still fell below the official poverty level, as a percentage of all people who were in the labor force for at least 27 weeks during the calendar year.

Reliability of the estimates

Statistics based on the CPS are subject to both sampling and nonsampling error. When a sample, rather than an entire population, is surveyed, there is a chance that the sample estimates may differ from the true population values they represent. There are two reasons this occurs: sampling error and nonsampling error. Sampling error occurs because samples differ by chance. The sampling error variability is measured by the standard error of the estimate. There is about a 90-percent chance, or level of confidence, that an estimate based on a sample will differ by no more than 1.6 standard errors from the true population value because of sampling error. BLS analyses are generally conducted at the 90-percent level of confidence.

All other types of error are referred to as nonsampling error. Nonsampling error can occur for many reasons, including the failure to sample a segment of the population, inability to obtain information for all respondents in the sample, inability or unwillingness of respondents to provide correct information, and errors made in the collection or processing of data. More information on the reliability of data from the CPS and on estimating standard errors is available at <https://www.bls.gov/cps/documentation.htm#reliability>.
